

Anthony Yaccarine

Senior Project Executive

41

Years of Experience

Anthony applies over 40 years of experience to a broad spectrum of commercial construction. As a Carpenter, Foreman, and Superintendent, Anthony's expertise enables him to estimate and project-manage with uncommon industry knowledge. He enjoys a proven track record building automotive dealerships, new building construction, site development, data centers, hotels, retail, dialysis centers, schools and interior tenant improvements of all types. At TEAMWRKX Construction, Anthony leads his own fast-track group delivering the full range of construction services from design-build coordination through tenant and facilities services. Anthony is passionate about assisting clients in reaching their fullest potential, both professionally and personally.
