

Honda of Downtown Los Angeles

New ground-up six story dealership including rooftop parking.

780 W Martin Luther King Jr Blvd
Los Angeles, CA

New ground-up six-story dealership including rooftop parking, showroom, retail center, service write-up areas, offices, lounge, café, retail parts and business development centers, and two exterior electronic media boards. Second floor showcases a glass stairwell and staircase for easy access to a customer lounge, executive and finance offices and a conference room; third floor houses the car wash/detail prep area; fourth floor houses a 34 bay service department; and fifth floor and rooftop are used to store vehicle inventory. This is a cast in place parking structure, and exterior finishes are a combination of concrete block masonry, stucco, and ACM finishes.
